

10 STEP-2 SECRET EXAMPLES

Introduction

The Step 2 Secret is based on the idea that you don't start promoting your lead magnet or lowest priced offers until you have at least the next couple of steps already mapped out (ideally you would have the entire process mapped from lead to sale).

The Step 2 Secret basically works on the premise of providing the next step to your ideal customer **right in the moment of their greatest interest or need.**

For example, if someone downloaded an eBook on how to play guitar, you know they are likely in a place of need around learning guitar. So in that moment immediately after they optin for that eBook, you offer the next step eg the video course or the paid tuition or the free consult to speed up or make the process easier. This Step 2 process is built into the Thank You page for the thing the user originally opted in to receive (or originally purchased).

The Step 2 Secret can increase conversions by up to 100% in some cases.

The next step can be a webinar, a video, a small purchase or some other additional value add content that helps your ideal client move further along their area of interest and move closer to you.

It's "striking while the iron is hot" rather than letting new leads go cold.

So, how do we do that?

There are numerous ways to present your offer on the Step 2 Thank You Page.

Here are 10 x Step 2 page examples:
