

# My Recurring Revenue Plan

How I could increase my revenue from recurrent revenue opportunities:

Add a subscription-based membership to my product or service.

Build my referral system into my product delivery and craft a plan for getting clients on board to refer me.

Create a 'maintenance' program for my clients that has them coming back.

Ask for the next appointment before my client leaves the current meeting.

Put clients on a 'retainer' arrangement.

Craft a multi-payment offer with clients paying me monthly while I deliver my services to them.

Create an 'evergreen' offer that people can buy and consume 24/7, e.g. an online workshop or course.

Join an affiliate program for software that I use and support and earn a commission from my referrals.

Offer an advertising package in my newsletter or on my blog.
